Resolution No. 19-97-SA AMENDING AUTHORITY RESOLUTION 19-90-SA TO REFLECT THAT THE NJDEP TREATMENT WORKS APPLICATION FOR THAT PROJECT COMMONLY KNOWN AS THE “PUMPING STATION NUMBER 3 FORCE MAIN IMPROVEMENT PROJECT” IS $2,950.00 AND NOT $3,674.00

Member McDade moved for adoption of Resolution No. 19-97-SA and Member Chollis seconded. Roll call vote as follows: Chollis – yes; Hourigan – yes; Masten – yes; McDade – yes; Sennstrom – yes. Resolution No. 19-97-SA is approved.

First for discussion is the Engineer’s Report. Engineer Palgutta reported:

- At a position to make the DEP submission for Pumping Station Number 3. Design of the sanitary sewer has been completed. Still a few things to work out with PSA superintendents regarding the existing connections to the forcemain as well as traffic control. This will get the application in the review process with the DEP. Forms to be signed tonight. With the receipt of the application fee and public notifications, will be in a position to make submission.

Member Chollis asked what the time frame would be once everything is in line. Engineer Palgutta said once the submission is made to the DEP they intend to try and shorten the
administrative period by meeting with DEP directly as opposed to making the submission through the mail which would set the project back about a month. Once it is moved on to a technical review they are allowed 90 working days to complete that review. Engineer Palgutta explained it could be three months depending on how busy they are. When approval is received from the DEP they can then go out to bid.

Next for discussion if the Superintendent’s Report. Assistant Superintendent Kuhns reported:

- Odor complaints from main pumping station recently. Mostly due to the low flow and hot weather. There is a bio filter there that incorporates wood chips to remove odor from discharge. Changed out the wood chips in the filter. Talked to the neighbors, everything ok now.
- Company cleaned Number 5 pumping station, located by the Queen of Apostles Church, there was a lot of grease built up inside.
- New truck was delivered. Took some time to order after approval earlier this year.

Member Hourigan asked if that was the truck to be shared with the Highway Department. Assistant Superintendent Kuhns said no, this one is just for the Sewerage Authority. Member McDade asked what the issue was with Gus’s Pizzeria from the phone call he had made to the treatment plant a few days prior. Assistant Superintendent Kuhns said they figured out it was one of the floor drains in the building. He said he had advised the owner to pour some water through the drain to clear it out, as far as he could tell it is a non-issue. Member McDade said last week they were discussing capacity that has been set aside for affordable housing. Engineer Palgutta said there were various tables in the office. Engineer Palgutta said he has a lot of different calculations but he wants to reach out to Michael for the final. He said in the meantime, he has reached out to the applicant but they have not responded back yet with any final projections. They provided a few different numbers previously, but until they submit a formal application it is hard to determine. Member McDade said he thinks they were discussing a food processing plant going into that location. He said the capacity there is important, he is hoping the number does not restrict what they want to put on the site. Engineer Palgutta said he will make it a point to reach out to Michael regarding the final determination. Member McDade pointed out they need to do the same thing on the water side of the project. There was some discussion regarding options as far connection and capacity options for the new development location.

CFO Willadsen asked Chairman Sennstrom if the board would like to discuss the audit. Henry Ludwigsen of Bowman and Company went over the annual audit of the Sewerage Authority for the members of the board. There was some discussion between Mr. Ludwigsen and the members regarding the audit report packet. Chairman Sennstrom asked CFO Willadsen if they could discuss the QPA business. CFO Willadsen explained that during the exit conference they discussed the availability of having a Qualified Purchasing Agent. He did reach out to the
QPA for the county to see if they would be interested in entering into a shared service with the Sewerage Authority. CFO Willadsen said the county would require more discussion before they can come to a decision. The advantages of having the QPA would be increases the thresholds for bids and quotes. There was some discussion regarding the process that would be required for creating a shared service with the county for the QPA.

The meeting was opened to the public. No public comment.

Resolution No. 19-98-SA AUTHORIZING A CLOSED SESSION IN ACCORDANCE WITH THE OPEN PUBLIC MEETINGS ACT

A matter involving the employment relationship between the Pennsville Sewerage Authority and an Authority employee.

Member McDade moved for adoption of Resolution No. 19-98-SA and Member Chollis seconded. Roll call vote as follows: Chollis – yes; Hourigan – yes; Masten – yes; McDade – yes; Sennstrom – yes. Resolution No. 19-98-SA is approved.
